Joe Judge Won't Delay Signing

RICHMOND, Va., March 12.-Monday morning Joe Judge is going to be one of the first of the Griffs in uniform at Tampa, whither he is traveling now as fast as the Seaboard train will take him. There will be no hanging back, no shirking, no sulking, though he admits that he may not succeed in coaxing President Griffith into giving him a three-year contract. But he does think that after he has had a conference with his boss tomorrow night at Tampa he will get a two-year contract. He admits that he and Griff have reached a complete accord regarding the amount of jack he will drag down for scooping up the low ones and pulling down the high ones around first base with the Washington club. In a

ing down the high ones around first base with the Washington club. In a boyish sort of way he explains his desire for a three-year contract.

"I know that Griff likes the one-year contract," says Joe. "But all the stars get two and three-year contracts. Now, if what you fellows write about me in the papers is true, why shouldn't I have a three-year contract? Then, too, I've thought it all out, and signing a three-year contract would take away all the worry of signing every winter. I like to have my work to do and do it, and then forget all about it. I feel that if I sign for three years I'll be even a better player than I ever have been in the past. It'll take some of the worry off my head; that's the way I look at it. I'm going to have a talk with Griff as soon as we get to Tampa. I'm going to try and convince him of my side of the case. He's Tampa. I'm going to try and convince him of my side of the case. He's fair-at least, he always has been ever since I came to the Washington club, and I figure that before I turn in tomorrow night I'll be all signed and ready to play ball."

"I haven't done much this winter. I just loafed around and rested. I was outdoors almost all the time, but always on the move. I haven't put on much weight, though I suppose Mike Martin'il be howling as soon as he sees me. He's a hard guy in the spring. He's always telling me I've got chops.
